Survey of Likely Republican Primary Voters
Kentucky Statewide

Methodology

This probabilistic survey was conducted May 10-12, 2019, with 600 likely Republican primary voters. It has a margin of error of ±4.00%. Interviews were conducted using an online sample acquired via email and SMS invitations sent to known registered voters and filled in with Interactive Voice Response (IVR) to landline phones. This survey was weighted to a likely Republican primary voter universe.

Likelihood to Vote
