

February 10th, 2026

CYGNAL

Survey of Likely 2026 General Election Voters **National**

February 3 – 4, 2026 | n=1500 | $\pm 2.51\%$

Insights & Analysis

- **Political Climate: “Wrong track” majority persists, but Democrats’ edge narrows**
 - The country is **marginally less bleak but still anchored in dissatisfaction**: 43% right direction / 54% wrong track.
 - The **shift toward RD** is carried by women <55 (+10 net RD), college-educated women (+9), and urban voters (+8), while the drag back toward WT comes from non-college men (-5), Independents (-7), and middle-class voters (-5).
 - The **generic ballot stays close at D 48 – R 44**, but the electorate is pulling in opposite directions: college-educated women move +11 net *toward* a generic GOP candidate, while non-college voters (-4 net), suburban men (-9), and Black voters (-10 net) swing toward Democrats. The movement with college-educated voters is a key positive marker for the GOP in a mid-term election. Looking at the generic without rounding the topline number, the **Dems are down** to a 3.4 lead from 3.9 in December.
 - Inside the non-college bloc, weakness is concentrated among non-college men 55+ (-16 net) and non-college suburban men (-15 net), plus non-college younger women (-8 net) and non-college rural women (-14 net).
 - College-educated voters have moved +10 to the GOP on net since December.
 - **Trump’s recent image improvement slid slightly**, driven by losses among non-college men (-7 net fav), older men (-8), and non-white voters (-5).
 - Meanwhile, **congressional brands converge**: Republicans in Congress are steady at roughly 43 fav, 53 unfav (-10), while Democrats in Congress improved +10 net fav to about 42 fav, 53 unfav (-11), **erasing the long-time Dem deficit**.
- **Issue Ownership: GOP leads in trust among voters on ALL issues**

Insights & Analysis

- On issue trust, **Republicans hold their clearest advantages on law-and-order issues** – illegal immigration/border security (+13) and crime/public safety (+13).
 - However, since last tested, immigration trust for the GOP eroded among non-college voters (-15 net), older women (-14), and young men (-20), while swing voters move only -3 net.
- On crime (and *all* of the issues tested), the **diploma divide is the story**: non-college voters shift +13 Dem net, while college-educated women shift +13 net GOP and college-educated men +5 net GOP.
- **Trust on affordability remains competitive with a GOP advantage**: economy/jobs R+3 and cost of living R+1, with Democrats improving +3 on cost-of-living trust since last fall.
 - Swing voters over-index +13 net toward trusting Republicans to cut waste, making **accountability framing** essential.
- **Top Priority: Border & spending on the right; “Trump hatred” on the left.**
 - The **agenda conversation is being pulled by two different emotional realities at the same time**. “Threats to democracy”, aka “**Trump Derangement Syndrome**” is now the **top national priority at 21%**, continuing its post–off-year climb and **overtaking inflation** as the single strongest lens through which one side is viewing politics right now.
 - At the same time, the “everyday life” agenda is re-shuffling: **healthcare fell** from 15% in January to 10%, while **illegal immigration rose** to 15%, pulling more oxygen back toward security, enforcement, and competence.
 - Coalitions split cleanly by vote intention, which is **why the election feels like two different countries**. The same topline priorities look completely different once you sort by who people plan to vote for.

Insights & Analysis

- **Dem-on-generic** voters are organized by “threats to democracy” (39%; +7) with inflation second (20%; -2) and healthcare at 15% after a -9 drop among the base.
- **GOP-on-generic** voters lead with illegal immigration (30%; +4) and government spending (23%; -2) with inflation next (18%; +1).
- **Swing voters stay affordability-and-economy-anchored** – inflation (26%; -1) and spending (15%; -2), but illegal immigration rose +4 since January.
- **GOP Policies Have Strong Majority Support**
 - 60% support **penalizing employers who hire undocumented workers**.
 - Men are 20 points more supportive than women and men 55+ over-index +30 net over topline.
 - **Election integrity** is a durable, intense majority: **70% support proof of citizenship via voter ID** (52% *strongly*), with deeper support among wrong-track voters (+13 net) and swing voters (+54 net).
 - **Welfare work requirements** are mainstream until you hit the youngest voters: 65% support overall; voters 30+ support by +41 points, while **under 30 are -15 net opposed**.
 - **Energy is the clean affordability contrast**: 68% say domestic oil/gas/energy independence is important and voters are net opposed to paying \$50/month more for renewables.
 - Voters who **already trust Republicans** on cost of living are **18+ points more likely to say energy independence is important**.

Insights & Analysis

- **Willingness to pay for a clean energy transition isn't popular**, especially among lower income/younger/less educated/lower-income voters, i.e. **Republican working-class** and **higher among** older/college/wealthier voters, i.e. **wealthy Democratic elites**.
- **Fiscal federalism** also tests well: 58% support tying federal funds to responsible state budgeting.
 - Support over-indexes +18 among voters prioritizing spending/waste or inflation/economy, and rises +30 among those who trust Republicans on cutting waste.
- **MAHA, Health & Nutrition: A surprisingly strong crossover lane for Republicans**
 - **The MAHA movement /health reform is bipartisan and growing**—and it's an issue that goes beyond RFK, Jr. (-4 net unfavorable, -1 with swing voters). Voters broadly support “challenge the status quo” health policies at 77% (up from 74% in Oct).
 - The **coalition is wide**: 88% support among Republicans, Independents +11 net since last fall, and 65% among Democrats (+15); growth is driven by college-educated voters (+18 net).
 - The **contrast test is the headline**: framing as *GOP supports MAHA vs Dem opposes MAHA moves the ballot from D+3 to R+7*, a +10 net improvement over the generic ballot, powered by swing voters (+12 net), men under 55 (+15), Hispanics (+14), and Independents (+15).
 - Voters want **healthier standards without being priced out**: 90% support; 60% accept a minimal price increase; 30% insist on no increase.
 - The **clearest nutrition tool is “phase out high-risk additives”** (50%) with nothing else above 28%; MAHA-R swing voters over-index +6 on additives, while school meal standards over-index with parents (+7), Democrats (+8), and renters (+7).

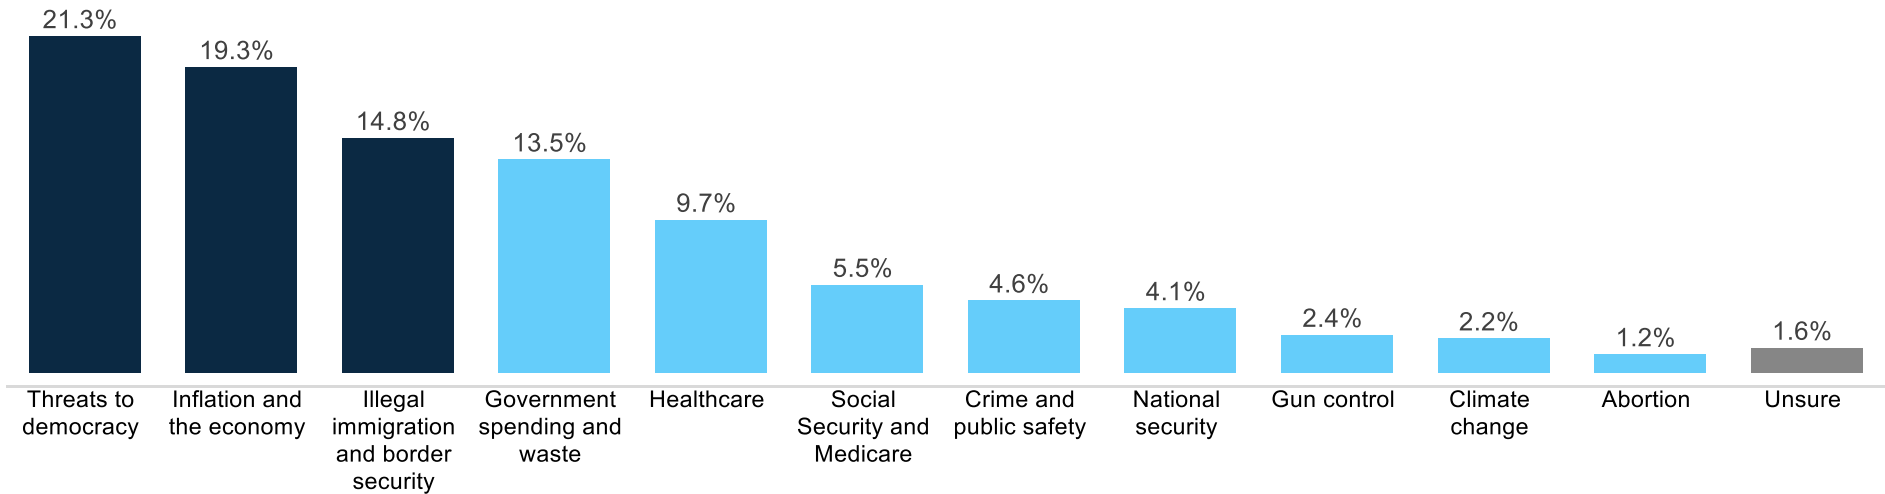

Insights & Analysis

- **AI, Tech & Local Development: AI / job anxiety and data center NIMBYism**
 - **AI is viewed through job-loss fear:** 62% say it eliminates more jobs than it creates; 9% say it creates more.
 - Black voters are 2x as likely as White/Hispanic voters to say it creates more.
 - **Data centers** are filtered through trust and privacy: **top associations are enabling AI** (22%), **storing data** (20%), and **surveilling Americans** (17%).
 - “Enable AI” over-indexes with men <55 (+5), college-educated men (+5), and suburban+urban (+7 vs rural).
 - Surveillance association over-indexes +3 among young men, Democrats, and Independents.
 - Data center siting brings some backlash: 46% oppose / 17% support a data center within 10 miles; **opposition intensity tracks association:** -23 net for “storing data,” **-42 net for “enabling AI,”** and **-73 net for “surveillance.”**
- **Media, Speech & Kids: Strong parent power, skepticism of gatekeepers**
 - **Media distrust is dominant:** 65% say media not accurate vs 29% accurate.
 - Among media-distrusters, GOP trust jumps across issues – economy/jobs +24, cost of living +22, immigration +22, crime/public safety +25, cutting waste +21, foreign affairs +24 – and they **back a generic Republican by 20 points.**
 - **On social media moderation, voters assume suppression:** 52% say platforms suppress legitimate views vs 16% say accurately remove harmful content.
 - About half of Democratic men <55 in urban communities say platforms accurately identify harmful content.

Insights & Analysis

- **Parents' rights online is a consensus position with a youth exception:** 76% support parents blocking accounts under 16, but only 52% of under-30s support full parental autonomy (-27 vs older).
- Schools and institutions remain combustible: 68% don't support teaching about gender identity before high school; aside from Democrats, only 7% are comfortable teaching about gender identity in elementary school.
- **Higher-ed accountability** is a sleeper majority: 56 - 28 support holding colleges financially responsible; parents +7; 38% of men <55 *strongly* support (+10).

Some public health advocates have proposed changes such as banning synthetic food dyes, increasing transparency around vaccine safety, removing untested chemicals from food products, and expanding nutrition education in schools. Supporters say these ideas would improve public health and reduce corporate influence. Critics say they could undermine scientific standards and public trust. Do you support or oppose implementing new health policies that challenge the status quo if they could improve public health?
